# INSIDE OUT. OUTSIDE IN.

Endoscopic approach to the Orbit. External approach to the Orbit

Otolaryngology and ophthalmology have a long and congenial professional relationship in the development of their mutual specialties over many years. Starting off as one professional society, we later moved on to develop their individual specialties owing to rapid advancements in each field.

However, plenty of the problems encountered in routine practice involve expertise from both specialties because of the shared common anatomic areas. These problems include: orbital complications of sinusitis, lacrimal apparatus problems, tumours and trauma problems, optic nerve decompression, and complications of endoscopic sinus surgery.

Both specialties have their own expertise to contribute to these common problems. In many cases it is in the best interest of the patient if both specialties consult and

contribute their knowledge, experience, and techniques in these cases.

iENT will set this unique opportunity to brings together Otolaryngologists and ophthalmologists to set a common platform for continued long and mutually respected professional relationship.

- **Highlights**
- 1 day conference and 1 day **LIVE Surgical Demonstration**
- 300-350 delegates
- Delegates comprises of Consultant Ophthalmologists, H&N and ENT Surgeons, Residents and PG Students
- Long intense sessions by maestros
- Exclusive videos of rare Surgeries
- Award paper presentations
- Poster presentations

## Core Committee

## Eye ENT 2013 Awards

Eye ENT Awards has been constituted with the objective of encouraging innovation, inquisitiveness and benchmarking best practices amongst practising consultants and residents. This being the first year, we are conferring awards to 3 best oral paper presentations and 3 best poster presentations.

To participate in the first contest, please submit your paper abstracts to [eyeent2013@gmail.com](mailto:eyeent2013@gmail.com) before 15th June 2013. Please note that we would be selecting ten best papers to be presented on the day of the event, of which 3 would be conferred the awards. Papers which are not selected are eligible to participate in the poster presentation contest. For detailed terms and conditions, please visit [www.eyeent.in](http://www.eyeent.in)

- For any queries, clarifications, please speak to Dr. Vishal Rao on +91-9739774949 or [drvishalrao@yahoo.com](mailto:drvishalrao@yahoo.com)
- Abstracts can be emailed in MS Word format. Abstracts should not be beyond 250 words.
