Subject: RASTER-2013 Programme Schedule

*Retina Adaptation &
Skill Transfer for Every Practice*
Retina for all...

(under the aegis of Karnataka Ophthalmic Society & Bangalore
Ophthalmic Society)

On July 21st, 2013

Venue: The Atria Hotel, Bangalore

Dear Doctor,

There has been a paradigm shift in ophthalmic practice with the comprehensive ophthalmologist being a key player in patient care. This in mind, we have designed an annual course "RASTER-Retina Adaptation and Skill Transfer for Every Practice", hoping to guide comprehensive ophthalmologists in managing common retinal disorders.

The highlights of this course are the case oriented, interactive discussions and video assisted skill transfer on lasers, intravitreal injections, interpretation of diagnostics along with a surgical film festival (High definition/3D). Our esteemed faculty will comprise national and local ophthalmologists.

We look forward to your enthusiastic participation in our endeavor.

Regards,

Supriya Dabir

Mentor - RASTER

Priya BV

Mentor - RASTER

(9:00 - 9:15 am: Registration) Program Schedule

9:15 - 10:30 am Dots, lines, leaks & stains: What do they mean to me?
